The Robert Hart, MD Endowed Lecture Presents: “The Effects of Trauma and Violence on Children and Parents”

PEORIA, III. – Parents and professionals who work with children will learn the signs of the effects of trauma in children and themselves and what they can do to help at the 2016 Robert Hart, MD Endowed Lectureship.

Guest speaker Anita Berry is Director of the Healthy Steps Program at Advocate Children’s Hospital in Chicago. She is a pediatric and family nurse practitioner, a pediatric primary care mental health and infant mental health specialist.

“Children and their parents are affected by trauma in their lives and often this can lead to physical and social emotional problems, but help is available to allow them to live healthy and happy,” says Berry.

- WHAT:** “The Effects of Trauma and Violence on Children and Parents”
WHEN: Wednesday, April 20 beginning at 6:30 p.m.
WHERE: Peoria Civic Center, 221 SW Jefferson
Meeting Rooms 220-221 (located between the Theater and Exhibit Hall)
PARKING: Parking is free in Civic Center parking lots. Mention the lecture.
RSVP: 309-624-4648, by email at lisakp@uic.edu or online

The presentation is free and open to the public.

The presentation is made possible thanks to the Robert D. Hart, MD Endowed Lectureship in Pediatric and Adult Rehabilitation. The endowment was established in 2002 to honor the late Dr. Hart for his distinguished medical career and hosts prominent scholars for presentations to enhance the training and education of medical students, residents, practicing physicians, and other health care providers as well as to better inform the public. This is the 13th year for the public lecture.
