# CONNECTING TO MERSIVE SOLSTICE POD

The Mersive Solstice Pod allows you to connect your laptop, tablet (via app), or smartphone (via app) to an external display (such as a TV) and share your screen on that display. There is one installed behind every display in **A115, A200B, A200C, A209, A210, and B216.**
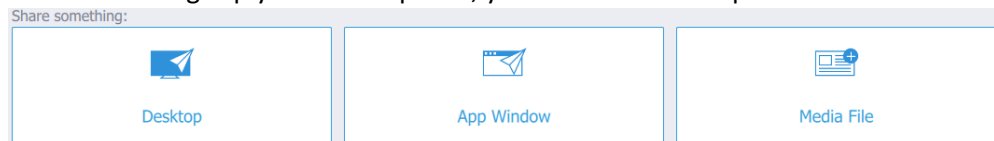

1.
   a. Push the Wireless Button on the control panel next to the TV.
   b. Make sure your device is connected to **UICOMP-Secure**
   c. Follow the instructions for **connect from the INTERNAL network.**
   d. Click the "Connect Button" to download the file.

   Get the app & connect!
   Already have the app? Click here

   e. Locate the file you just downloaded
   f. Install the application file. You have now installed the Solstice Client
   g. Open the Solstice Client
   h. Type in your Name to get started and click Continue

Your Name	User

   i. When prompted, enter the four-character screen key
   j. Click any of the buttons to share:
      i. Desktop shares the whole desktop on your laptop
      ii. App window lets you choose a specific app to share exclusively
      iii. Media File brings up your files explorer, you can browse to a picture or video

   Share something:

Desktop	App Window	Media File

2. You can also download the app from the Apple App Store or Google Play Store. Just search "Mersive" to download and install the app.

   Solstice
   Mersive Inc
   Stream media wirelessly from your device to a display with the Solstice app.
   ★★★★☆   FREE
