...meeting the medical needs of
abused and neglected children.

Stephanie Johnson
Executive Director

Channing S. Petrak, MD
Medical Director

Dear PRC Friend:

The Pediatric Resource Center (PRC) has been providing direct services to hundreds of suspected child victims of physical abuse, sexual abuse, and neglect in a child-friendly setting for 22 years. Each year the number of children served by the PRC from over 50 counties in Central Illinois grows. The connection made between our staff, the kids and their families is meaningful in many ways – from reassurance that their body is healthy to education for parents so they can talk with their child about their abuse. We want to give others the opportunity to make meaningful connections with our kids as well.

The PRC is facing an ever growing need for services. We know that many people, like you, want to do something to support abused and neglected children. We are offering you the opportunity to sponsor Go Casual for Kids. Participants contribute \$5 to dress casually to benefit the PRC. The PRC will provide you with blue ribbon lapel pins to show your support. Feel free to be creative with your own Go Casual for Kids day. Maybe you could also auction off a prime parking spot or lunch with the boss for an extra donation. Please show your support by participating and making a meaningful connection with our kids by adding a message of encouragement.

To participate in Go Casual for Kids, please complete the enclosed form. If you need additional information, or would like a PRC representative to come and speak with you, please contact us at 309.624.9595 or prcinfo@uicomp.uic.edu. You can find more information about the PRC at www.pediatricresourcecenter.org. We hope that you will participate in Go Casual for Kids so the PRC can continue providing valuable services to children that need them so desperately.

Sincerely,

Stephanie Johnson
