

SETTING UP UICOMP-SECURE WIRELESS ON MAC OS

These instructions are for setting up access to the UICOMP-Secure broadcasted wireless SSID at the UICOMP campus when using MacOS.

1. Click on the wireless icon near the top right-hand corner.
2. Select **UICOMP-Secure** from the list of available networks, and then click the **Connect** button. Windows will show its progress as it attempts to connect to the wireless network.

3. Sign in using **netid** and **password**

4. To check that you've connected successfully, click on the wireless icon again and you should see that you are connected to UICOMP-Secure. The checkmark shows what SSID you are connected to.
