

SETTING UP UICOMP-GUEST WIRELESS ON WINDOWS 7

These instructions are for setting up access to the UICOMP-Guest broadcasted wireless SSID at the UICOMP campus when using Windows 7.

Click on the wireless icon near the time in the bottom right hand corner of the taskbar.

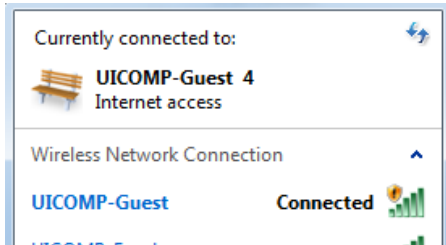

Select **UICOMP-Guest** from the list of available networks, and then click the **Connect** button. Windows will show its progress as it attempts to connect to the wireless network.

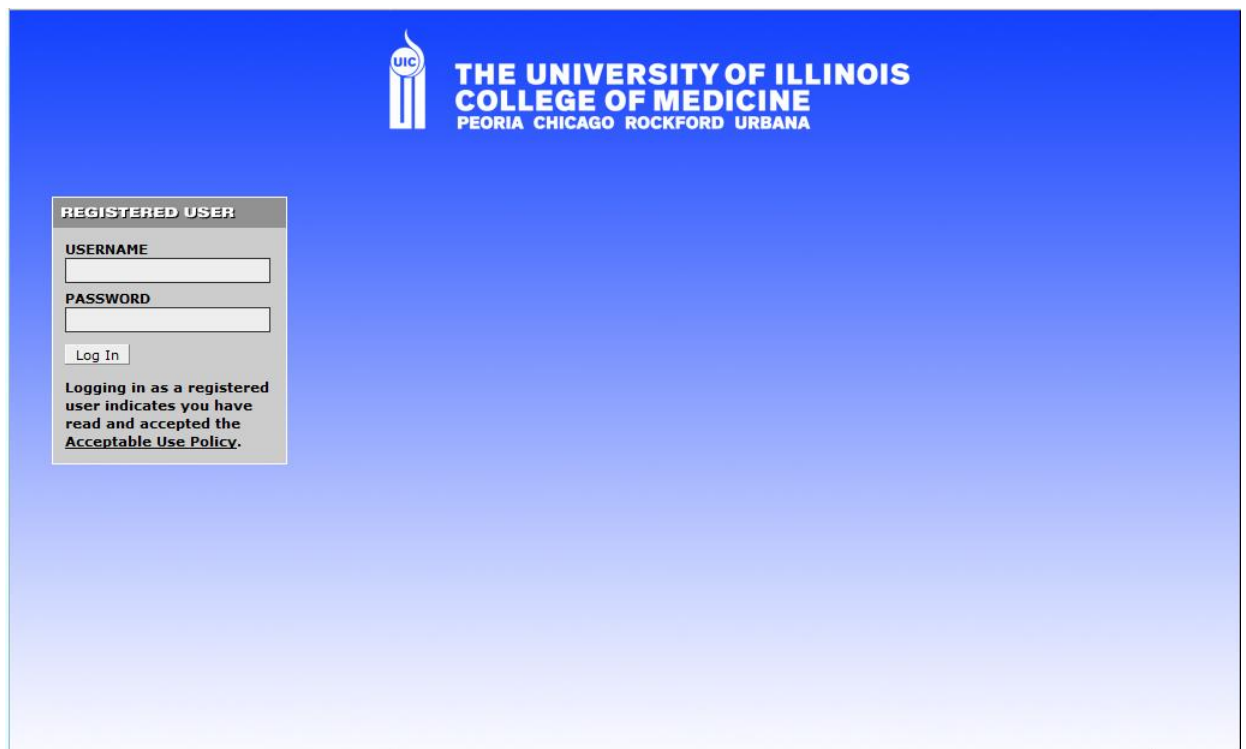

COMMUNICATION&INFORMATION SERVICES

To check that you've connected successfully, click on the wireless icon again and you should see that you are connected to UICOMP-Guest.

Once connected, launch a web browser, like Internet Explorer, Chrome or Mozilla Firefox, to login to the wireless network. Once logged in you are ready to browse the Web. Your username and password can be received from the Front Desk or the CIS department.

Each Web browser will have different instructions for first time use. For more information:
