# CONNECTING TO SECURE AND STUDENT WIRELESS VIA WINDOWS 8
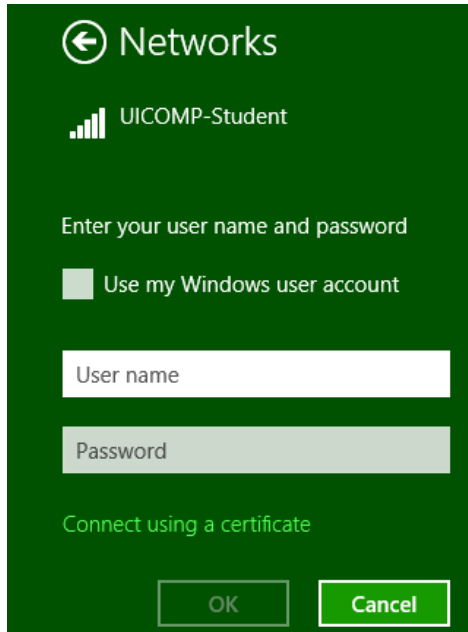

1. Click on the Network icon located at the bottom right corner of the task bar.

2. Click on the **UICOMP-Student** or UICOMP-Secure network from the list of available networks.
3. Click on **Connect**. If you want to connect automatically to this network in future, check the box next to the text "Connect automatically".

4. Enter your UICOMP **username** and **password** and click on OK. Do not click the "Use my Windows user account" radio button.

5. Click on **Connect** when the certificate window pops-up.

6. You are now connected to **UICOMP-Student or UICOMP-Secure** secure wireless network.
