

Welcome Citrix XenDesktop (VDI)

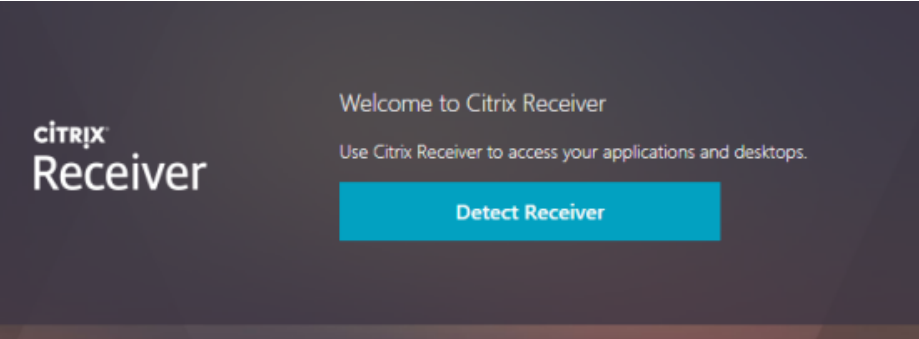

To access VDI on a personal computer, enter <https://appstore.peoria.uic.edu> into a web browser (CIS recommends using Internet Explorer 11 or Firefox)

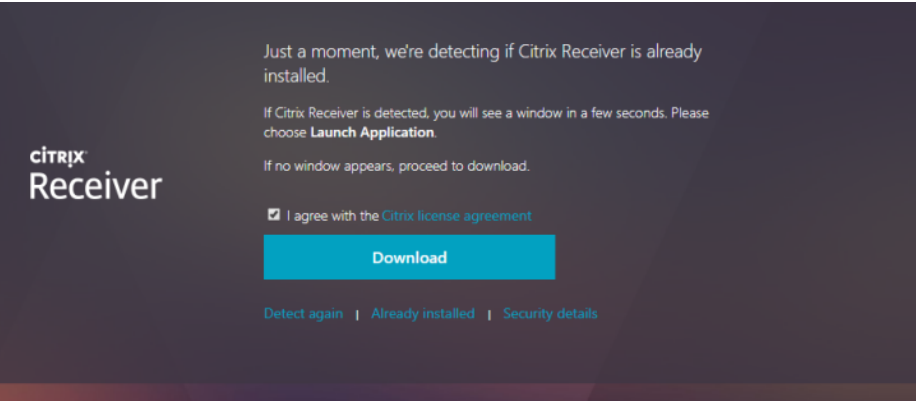

VDI Requires Citrix Receiver to be installed. After clicking on your VDI icon

If Citrix Receiver is not installed on your device, you will receive a prompt to Detect Receiver
Click on Detect Receiver

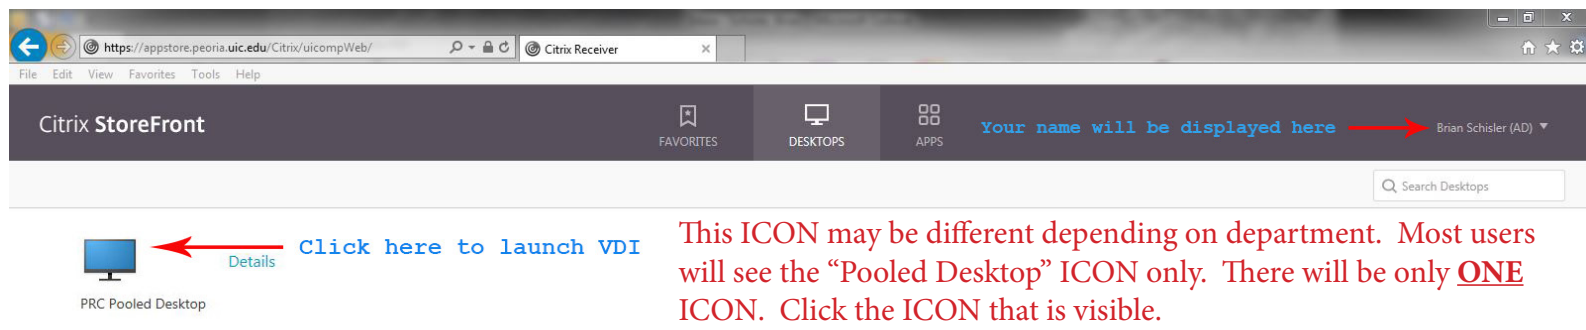

Citrix Receiver will open the window below. Check the box 'I agree with the Citrix license'

Select Download

After logging in with NET ID and Password, the page shown below will be displayed in the web browser.

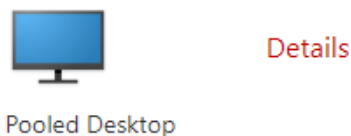

After clicking on the Pooled Desktop icon, the VDI will launch

Once connected, the windows desktop will appear.

IE 11 is the preferred browser for VDI.

If you use Chrome. Click on the VDI Desktop icon

Chrome will download an attachment
