PREFACE

The Pediatric Resource Center is pleased to provide you with the 16th edition of the Directory of Illinois Healthcare Providers for Child Abuse & Neglect Investigations. A complimentary CD of the Directory is being provided to you as part of the Children’s Justice Grant through the Illinois Department of Children and Family Services.

This Directory contains the most up-to-date information regarding healthcare professionals who provide medical examinations that evaluate children for sexual abuse, physical abuse, and neglect. Its purpose is to be a resource to professionals who are involved in child protective services by providing detailed information about each health care providers’ training and expertise in the area of child maltreatment. The 2021 Directory contains provider responses based on the current National Child Advocacy Center accreditation standards. We have also included contact information for DCFS field offices and Children’s Advocacy Centers in order to provide an easy way to access multi-disciplinary teams throughout the state of Illinois.

Directory of Illinois Healthcare Providers for Child Abuse & Neglect Investigations is also available on the Pediatric Resource Center’s website, PediatricResourceCenter.org.

This Directory has been made possible thanks to the project leadership of Amanda Franklin, Outreach and Events Coordinator, Pediatric Resource Center.

Pediatric Child Abuse and Neglect Medical Centers of Excellence

In 2016, the Illinois Children's Justice Taskforce designated Pediatric Child Abuse and Neglect Medical Centers of Excellence throughout Illinois. The concept of Medical Centers of Excellence is based on program standards established nationally by the Children’s Hospital Association. Each of the designated Medical Center of Excellence is under the medical direction of at least one physician certified as a Child Abuse Pediatrician by the American Board of Pediatrics. Pediatric Child Abuse and Neglect Medical Centers of Excellence work with multidisciplinary teams to provide intensive, real-time collaboration with effective communication and guidance regarding child maltreatment. Additionally, these Centers of Excellence offer advanced diagnostic and treatment services in consultation with numerous subspecialists and are regional/national leaders in child maltreatment and family violence intervention and preventions services. The Pediatric Child Abuse and Neglect Medical Centers of Excellence in Illinois are as follows:

Ann & Robert H. Lurie Children’s Hospital of Chicago

Children’s Medical and Mental Health Resource Network

Child Advocacy and Protective Services (CAPS) at University of Chicago Comer Children’s Hospital

Medical Evaluation Response Initiative Team (MERIT)

Multidisciplinary Pediatric Education and Evaluation Program (MPEEC)

Pediatric Resource Center (PRC)

Stroger Hospital Division of Child Family Wellness & the Chicago CAC Medical Clinic

The Division of Child Abuse Pediatrics and Protective Services Team (PST), identifies and treats children that are victims of abuse and neglect. We offer a wide range of clinical services to patients and families in cases where child maltreatment is either suspected or has been identified. A child abuse pediatrician and social workers are on call 24/7 to ensure that, no matter when a child enters the hospital, our team is be available. The Division of Child Abuse Pediatrics and Protective Services Team offers several training opportunities to better educate those serving children and families in both the hospital and the community.

Multidisciplinary Pediatric Education and Evaluation Consortium

MPEEC was established in 2000 to provide a real time medically informed coordinated interagency evaluation of children reported for medically based allegations where child abuse medical expertise is required. Unique to the MPEEC program is that there is a mandatory population of children who through real time referral by DCFS receive this interagency ongoing evaluation culminating in a final comprehensive written MPEEC report. As of 2021 the following children's hospitals are members of MPEEC: Comer, Advocate, Loyola and Rush Children's Hospitals. MPEEC central administration is located at University of Chicago. MPEEC also provides expert case review to DCFS through an intake referral process for all allegations. MPEEC provides quarterly trainings to DCFS and the community and lastly MPEEC Medical Leadership meets monthly for programmatic needs and a venue for peer review.

Children Ages: Mandated cases- children are less than 36 months, all ages for medical center patients and DCFS expert opinion requests Sex: Boys & Girls

Inpatient or Outpatient: Inpatient & Outpatient

Referral Process Description: Requests for MPEEC expert consultation by DCFS requires completion of the MPEEC Opinion Request Form, which is then reviewed by MPEEC staff to determine if the MPEEC request meets criteria.

Referrals outside of regular business hours: submission of the MPEEC Opinion Request form by email.

Referrals Accepted From: DCFS

Maltreatments Evaluated: Other: MPEEC provides services to three populations; children who are patients at MPEEC medical centers; MPEEC mandated cases that are referred by DCFS to MPEEC; Mandated cases are children who are Chicago residents, under 36 months reported for head injury, skeletal trauma and internal injuries; children who have sustained burn injuries who are admitted to MPEEC hospitals and children evaluated at MPEEC hospitals with cutaneous injuries who receive a CAP consultation. MPEEC also takes referrals from DCFS for any allegation for a medical expert review- there is an intake process in place for medical expert opinion review.

Services provided: second opinions, Other: MPEEC provides DCFS the opportunity to request expert medical consultation for all allegations. This will include medical record review, imaging review, and review of DCFS investigational findings.

Exam-Specific Services: Other: MPEEC is primarily a serious harms program for both a mandatory population of children reported for injuries and also provides case review/medical expert review of cases referred for an opinion. Please see the separate MPEEC hospital listings for services related to primary clinical response to child sexual abuse such as forensic evidence, imaging capturing and photo documentation of physical findings.
